Summary

Artificial Intelligence and Data Science student with a **9.20 CGPA**, passionate about building intelligent and scalable software solutions. Experienced in **Machine Learning, Data Analysis, NLP, and Full Stack Web Development** through academic projects and internships. Proficient in **Python, Java, React.js, Node.js, Express.js, SQL, and TensorFlow**, with strong analytical, problem-solving, and teamwork skills. Seeking an opportunity to contribute to innovative AI and software development projects.

Education

Bachelor of Technology in Artificial Intelligence and Data Science 09/2023 – 09/2027
Nandha Engineering College, erode Erode, Tamil Nadu
Expected Graduation: 2027 | CGPA: 9.20 / 10

Higher Secondary Education 06/2022 – 03/2023
Carmel Girls Higher Secondary School Kangayam
Percentage: 86%

Experience

Data Science Intern 06/2025 – 07/2025
Training Trains Perundurai, Tamil Nadu

- Collected datasets through Python-based web scraping techniques.
- Cleaned, transformed, and preprocessed datasets for machine learning applications.
- Performed exploratory data analysis and visualization to generate business insights.
- Collaborated with team members to automate data processing workflows.

Technical Skills

Programming Languages Python, Java, JavaScript, SQL	Machine Learning & Data Science Scikit-learn, TensorFlow, NLTK, NLP, Sentiment Analysis, Data Preprocessing, Feature Engineering, Data Analysis
Full Stack Development React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, REST APIs	Database MySQL, MongoDB
UI/UX Design Figma, Wireframing, Prototyping, User Research	Tools Git, GitHub, Tableau, VS Code
Core Concepts Object-Oriented Programming, Data Structures, Algorithms, Problem Solving	

Projects

Campus Hub - A Platform for Resource Sharing
React.js, Node.js, Express.js, MongoDB

- Developed a campus collaboration platform for announcements, placement updates, discussion forums, and academic resource sharing.
- Built responsive frontend interfaces using React.js.
- Developed REST APIs using Express.js and Node.js.
- Integrated MongoDB for efficient data storage and retrieval.

MedIntel SelfTrack: AI-Based Cardiovascular & Chronic Disease Monitoring System.

Python, Machine Learning

- Developed a healthcare analytics platform for monitoring chronic diseases using machine learning.
- Analyzed health metrics to assess disease risk.
- Integrated an AI chatbot to provide personalized health guidance.

Movie Review Sentiment Analysis

Python, Scikit-learn, NLTK

- Built an NLP-based sentiment analysis model to classify movie reviews.
- Applied text preprocessing, TF-IDF vectorization, and machine learning classification algorithms.
- Evaluated model performance using accuracy and classification metrics.

Stock Price Prediction

Python, Tensorflow

- Developed a machine learning model to predict stock price trends using historical financial data.
- Performed preprocessing, feature engineering, and model evaluation for time-series forecasting.

UI/UX Design Projects

Figma

- Designed a mobile food ordering application with user-centered navigation and checkout workflow.
- Developed a gaming dashboard emphasizing responsive layouts, typography hierarchy, and modern interface design.

Certifications & Workshops

- **Full stack Development** — Novi Tech
- **Applied Machine Learning** — Linkedin Learning
- **UI/UX Design** — coursera

Leadership Activities

Department Executive Member

2025 – 2026

Department of Artificial Intelligence & Data Science

Acheivements

- Active problem solver on LeetCode and HackerRank
- Developed AI, Machine Learning, and Full Stack projects addressing real-world applications
